**MAY MEETING--KLAUS BUNGE founder of ODYSSEY AUDIO presenting
an ODYSSEY SYSTEM of KHARTAGO Mono Amps, CANDELA Tube
Preamp, and KISMET Beryllium Reference Loudspeakers**

**We are very pleased to have back (after too long a time) Klaus Bunge
from Odyssey Audio (www.odysseyaudio.com) who will be
demonstrating an entire system (except source) from Odyssey Audio
that was recently demonstrated to a very positive response at the recent
AXPONA show in Rosemont. Odyssey Audio manufactures and
engineers their own products in Indianapolis and sells direct to
audiophiles through their website. Klaus offers the system for \$6900, a
discount from the separate component prices and consists of the
following:**

Khartago Mono Block Amplifiers

Kismet Beryllium Reference Loudspeakers

**(This link is for the smaller monitor sharing the same tweeter. This
newest tower speaker being demoed with lower bass is not yet on the
website and lists at \$4200 separately.)**

Groneberg Quattro Reference Cables

The source will likely be a Symphonic Line CD player.

Do bring along your favorite music on CD for what should be a great meeting. Looking forward to meeting those we met at AXPONA 2015 added to our list. See you all there!
