

## **Meeting Notice Sunday, July 25th 2:00PM-5:00PM**

**Get together at Brian Richardson's home, 3014 N. Kennicott, Arlington Heights, (847) 577-0944**

Brian will be barbequing. Pop, diet pop, and water will be provided. If any members want to bring a dessert, side dish, or different beverages please do so. We'll have the chance to hear Brian's modified Magnepan 1.6's driven by the Audiomat Arpege tube integrated, fed by Stan Warren modified Philips SACD-1000.

### **The Classic Corner-Len Cronin**

Len is still very involved with his recent move. Look for May's playlist and an article next month.

### **June Meeting Recap**

The June meeting featured Bob Smith from SP Technology loudspeakers from La Porte, Indiana demonstrating their Continuum A.D. loudspeaker, a fairly large stand mounted speaker utilizing their waveguide tweeter in what at least resembles a d'Appolito type configuration with metal cone midrange-woofers. Bob explained due to the higher power handling capabilities of the tweeter when used with the waveguide they are able to use the midrange-woofers with the most optimal crossover frequency for the design at 1000 Hz.

Their local dealer Joe Jurzec from JAM'n Audio of Lake Villa, IL supplied associated equipment including: Jolida 801 tube amplifier heavily modified by Response Audio, a Proceed CDP transport, and a current Birdland Odeon DAC. A Crown Macro Reference (800w/ch) was also on hand.

Initially, the system was biamped with the Crown Macro Reference and the modified Jolida-certainly no volume or headroom limitations here! During the second half of the meeting the speakers were run solely with the Jolida with the consensus being that this was the best sound.

Our thanks to all for a very professional and enjoyable presentation. Further information can be obtained at the websites:

### **Important Announcements**

A vote will **definitely** be taken at the July meeting to fill the President vacancy.

**Meetings will not be at the Arlington Heights Historical Society location for July and August. See below for more details of the August meeting.**

### **Future Meetings**

**August-Get together at Frank Putnam's**, 6 S 681 Millcreek Lane, Naperville, IL

The meeting date is **Sunday, August 22nd 2:00PM-5:00PM**. Frank will be barbequing. Pop, diet pop, and water will be provided. If any members want to bring a dessert, side dish, or different beverages please do so. This will be a great opportunity to hear Frank's setup consisting of Acoustat 2+2 electrostats driven by modified Acoustat Servo Amps. Whether you are familiar with this unique configuration or not you'll want to be there!

**September-Note meeting date is 4th Sunday, September 26th**. We will be featuring **Brent Riehl and Audiopoints**. They did the last Dance Building meeting 2 years ago holding our attention far more than to be expected with their equipment rack. This time they will be supplying an entire system of their own design, except for the source. Mark your calendar!

October-Sedrick Harris, representing Nola (formerly Alon speakers), Berendson electronics from Germany, and the Cruz digital amp. This will mark Sedrick's 4th meeting with us over the years, and for those of you who haven't attended one in the past it will be a treat. Mark your calendar!
