

Subject: Chicago Audio Society-July Meeting Cancelled

Due to last-minute scheduling cancellations, there will be no meeting for July.

However, we will be meeting as usual in August at Rick Berta's place in Homer Glen just a few minutes off I-355. Details to follow in a few weeks. Rick has been busy updating his systems adding both Art Audio PX25 and Wavac single-ended tube amplifiers. There will be a total of 4 high-efficiency systems to listen to, including 2 large-scale horn systems. Two 14 cubic foot subwoofer enclosures with 30 inch Electrovoice drivers are large scale indeed!

More to follow...
