John's system includes most sources an audiophile would ever likely use:

- BAT VK-80 Preamplifier
- BAT VK-P80 Phono Stage
- VPI HW-40 Anniversary Turntable
- VPI JMW-12 Tonearm/Hana Umami Red Cartridge (has all available WallyTools adjustments for both)
- 4 Reel-Reel Decks compatible with all reel tape formats
- Oppo BDP-205 DAC/Player/Endpoint
- Mac Mini-Roon Server with Qobuz
- Uptone Audio Ether-Regen

John has a library of great recordings on all formats. Do bring your favorite, we can play as time allows.
