Meeting-Chicago Audio Society-RSVP Necessary!****

**Saturday, September 24 -AND/OR-
September 25 at Stephen
Merryweather's House, Elgin, IL
Starts 3PM**

NOTE: Please choose either Saturday or Sunday (or both) and contact Stephen at:
stmerry.5063@gmail.com to attend and receive location details.

For September we are meeting at Stephen Merryweather's, who has organized Elgin Audiophile Meetup, and extended the get-together with our group. To quote Stephen from his Meetup profile, "I have been strongly interested in audio for 45 years or so. I have been a musician, sound engineer, studio owner, speaker builder, music collector, and all round madman for a long time." Stephen builds his own horn, open-baffle, and high-efficiency speakers and will have a number on hand to demo (photo below):

The meeting will also feature Matthew Formanek, designer and builder from Toolshed Amps (www.toolshedamps.com) who will be bringing along three of his designs to audition with Stephen's speakers (example below).

Stephen is also featuring a record sale as well as used audio equipment. You are welcome to bring yours to sell or trade as well. Do bring along your favorite records and CDs to listen.

Be sure to contact Stephen (see above) to attend.

Hope to see you all this weekend.
