DELUXE AUDIO VIDEO PRESENTS 3 SYSTEMS-A GOLDEN EAR TECHNOLOGY REFERENCE LOUDSPEAKER SYSTEM, A MARTIN LOGAN CLX ART LOUDSPEAKER SYSTEM WITH GOLDEN EAR TECHNOLOGY SUPERSUB XXL, and ALL GOLDEN EAR LOUDSPEAKERS IN A DOLBY ATMOS 7.4 SYSTEM

We are happy to be meeting again at Deluxe Audio Video (<https://www.deluxeaudioandvideo.com>) in Naperville, IL for not one, but three systems that should hold strong interest. Our thanks to Bob Servos, the owner of Deluxe Audio Video for making this all possible.

We have met previously at Deluxe for the introductions of the original Golden Ear Triton 2 and Triton 1 loudspeakers. The Golden Ear Triton Reference is the new flagship speaker and has been very favorably reviewed. Please check the Golden Ear website for more information:

The Martin Logan CLX Art is the company's top of the line full range electrostatic loudspeaker (-3dB @ 56HZ) and is meant to be used with a subwoofer.

Dolby Atmos is the top-line surround offered by Dolby and this is a unique opportunity to hear it set up in a 7.4 configuration with all Golden Ear Technology speakers. Deluxe Audio Video is one of the largest Sony projector dealers in the U.S. and the room will feature the 4K Ultra Sony VPL-VW365ES projector.

The three systems assembled are as follows:

System 1:

**Golden Ear Technology Reference Loudspeakers and Triton 2 Speakers
Parasound Halo Amplifier(s)
Marantz AV8801 11.2 Preamp/Processor (used as stereo)**

System 2:

**Martin Logan CLX Art Loudspeakers
Golden Ear Technology SuperSub XXL Subwoofer
Rest of system TBD**

System 3:

**Dolby Atmos 7.4 System
-Golden Ear Triton 1's (front)
-Golden Ear Loudspeakers Center, sides, front height, rear height, rear
Separates: Amp, preamp, processor from Marantz, Emotiva, and Parasound
Sony VPL-VW365ES 4K Ultra Projector**

Do bring along your favorite music on disc. This is a great opportunity to hear three great systems spanning a wide range of interests. Look forward to seeing all of you this Sunday.
